Report of Independent Auditors

To the Board of Directors of Voya Retirement Insurance and Annuity Company and Participants of Variable Annuity Account F of Voya Retirement Insurance and Annuity Company

Opinion

We have audited the financial statements of each of the subaccounts listed in the Appendix that comprise Variable Annuity Account F of Voya Retirement Insurance and Annuity Company (the "Account"), which comprise the statements of assets and liabilities as of December 31, 2024, the related statements of operations and the statements of changes in net assets for each of the periods indicated in the Appendix, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Account as of December 31, 2024, and the results of its operations and changes in its net assets for each of the periods indicated in the Appendix, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Account and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Account's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free of material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with

GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and
 disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audits in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Account's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Account's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

/S/ ERNST & YOUNG LLP

Notes to Financial Statements

1. ORGANIZATION

Variable Annuity Account F of Voya Retirement Insurance and Annuity Company (the "Account") was established by Voya Retirement Insurance and Annuity Company ("VRIAC" or the "Company") to support the operations of variable annuity contracts ("Contracts"). The Company is an indirect, wholly owned subsidiary of Voya Financial, Inc., a holding company domiciled in the State of Delaware.

The Account is not registered as a unit investment trust with the Securities and Exchange Commission under the Investment Company Act of 1940, by virtue of the provisions of Section 3 (c)(11) thereof. VRIAC provides for variable accumulation and benefits under the Contracts by crediting annuity considerations to one or more subaccounts within the Account or an investment option in the Company's fixed account, as directed by the contract owners. The portion of the Account's assets applicable to Contracts will not be charged with liabilities arising out of any other business VRIAC may conduct, but obligations of the Account, including the promise to make benefit payments, are obligations of VRIAC. Under applicable insurance law, the assets and liabilities of the Account are clearly identified and distinguished from the other assets and liabilities of VRIAC.

The Account provides its principal products and services through one operating segment. The Director and President of the Company is the chief operating decision maker ("CODM"). The CODM assesses performance and makes resource allocation decisions based upon the Net increase (decrease) in net assets resulting from operations presented in the Statements of Operations. The measure of segment assets is reported on the Statements of Assets and Liabilities as Total assets. Significant expenses regularly provided to the CODM are consistent with those presented in the Statements of Operations.

As of December 31, 2024, the Account had 54 subaccounts, 21 of which invest in independently managed mutual funds and 33 of which invest in mutual funds managed by an affiliate, Voya Investments, LLC. The assets in each subaccount are invested in shares of a designated fund of various investment trusts (the "Trusts"). The subaccounts with asset balances at December 31, 2024 are as follows:

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the significant accounting policies of the Account:

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investments

Investments are made in shares of a subaccount and are recorded at fair value, determined by the net asset value per share of the respective subaccount. Investment transactions in each subaccount are recorded on the trade date. Distributions of net investment income and capital gains from each subaccount are recognized on the ex-distribution date. Realized gains and losses on redemptions of the shares of the subaccount are determined on a first-in, first-out basis. The difference between cost and current fair value of investments owned on the day of measurement is recorded as unrealized appreciation or depreciation of investments.

Federal Income Taxes

Operations of the Account form a part of, and are taxed with, the total operations of VRIAC, which is taxed as a life insurance company under the Internal Revenue Code ("IRC"). Under the current provisions of the IRC, the Company does not expect to incur federal income taxes on the earnings of the Account to the extent the earnings are credited to contract owners. Accordingly, earnings and realized capital gains of the Account attributable to the contract owners are excluded in the determination of the federal income tax liability of VRIAC, and no charge is being made to the Account for federal income taxes for these amounts. The Company will review this tax accounting in the event of changes in the tax law. Such changes in the law may result in a charge for federal income taxes. Uncertain tax positions are assessed at the parent level on a consolidated basis, including taxes of the operations of the Separate Account.

Contract Owner Reserves

The annuity reserves of the Account are represented by net assets on the Statements of Assets and Liabilities and are equal to the aggregate account values of the contract owners invested in the subaccounts. To the extent that benefits to be paid to the contract

Notes to Financial Statements

owners exceed their account values, VRIAC will contribute additional funds to the benefit proceeds. Conversely, if amounts allocated exceed amounts required, transfers may be made to VRIAC. All Contracts in the Account are currently in the accumulation period. Prior to the annuitization date, the Contracts are redeemable for the net cash surrender value of the Contracts.

Changes from Principal Transactions

Included in Changes from principal transactions on the Statements of Changes in Net Assets are items which relate to contract owner activity, including deposits, surrenders and withdrawals, death benefits, and contract charges. Also included are transfers between the fixed account and the subaccounts, transfers between subaccounts, and transfers to (from) VRIAC related to gains and losses resulting from actual mortality experience (the full responsibility for which is assumed by VRIAC).

Subsequent Events

The Company has evaluated all events through the date the financial statements were issued to determine whether any event required either recognition or disclosure in the financial statements. The Company is not aware of any subsequent events that would have a material effect on the financial statements of the Account.

3. FINANCIAL INSTRUMENTS

The Account invests assets in shares of open-end mutual funds, which process orders to purchase and redeem shares on a daily basis at the fund's next computed net asset values ("NAV"). The fair value of the Account's assets is based on the NAVs of mutual funds, which are obtained from the transfer agents or fund companies and reflect the fair values of the mutual fund investments. The NAV is calculated daily upon close of the New York Stock Exchange and is based on the fair values of the underlying securities.

The Account's assets are recorded at fair value on the Statements of Assets and Liabilities and are categorized as Level 1 as of December 31, 2024 based on the priority of the inputs to the valuation technique below. There were no transfers among the levels for the year ended December 31, 2024. The Account had no liabilities as of December 31, 2024.

The Account categorizes its financial instruments into a three-level hierarchy based on the priority of inputs to the valuation technique. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure fair value fall within different levels of the hierarchy, the category level is based on the lowest priority level input that is significant to the fair value measurement of the instrument.

- Level 1 Unadjusted quoted prices for identical assets or liabilities in an active market. The Account defines an active market as a market in which transactions take place with sufficient frequency and volume to provide pricing information on an ongoing basis
- Level 2 Quoted prices in markets that are not active or valuation techniques that require inputs that are observable either
 directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - a. Ouoted prices for similar assets or liabilities in active markets;
 - b. Quoted prices for identical or similar assets or liabilities in non-active markets;
 - c. Inputs other than quoted market prices that are observable; and
 - d. Inputs that are derived principally from or corroborated by observable market data through correlation or other means.
- Level 3 Prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These valuations, whether derived internally or obtained from a third party, use critical assumptions that are not widely available to estimate market participant expectations in valuing the asset or liability.

4. CHARGES AND FEES

Under the terms of the Contracts, certain charges and fees are incurred by the Contracts to cover VRIAC's expenses in connection with the issuance and administration of the Contracts. Following is a summary of these charges and fees:

Mortality and Expense Risk Charges

VRIAC assumes mortality and expense risks related to the operations of the Account and, in accordance with the terms of the Contracts, deducts a daily charge from the assets of the Account. Daily charges are deducted at annual rates of up to 1.20% of the

Notes to Financial Statements

average daily net asset value of each subaccount of the Account to cover these risks, as specified in the Contracts. These charges are assessed through a reduction in unit values.

Asset-Based Administrative Charges

A charge to cover administrative expenses of the Account is deducted at an annual rate of up to 0.25% of the assets attributable to the Contracts. These charges are assessed through a reduction in unit values.

Contract Maintenance Charges

An annual Contract maintenance fee of up to \$30 may be deducted from the accumulation value of Contracts to cover ongoing administrative expenses, as specified in the Contract. These charges are assessed through the redemption of units.

5. RELATED PARTY TRANSACTIONS

Management fees were paid to Voya Investments, LLC, an affiliate of the Company, in its capacity as investment adviser to Voya Equity Trust, Voya Funds Trust, Voya Investors Trust, Voya Partners, Inc., Voya Variable Portfolios, Inc., and Voya Variable Products Trust. The investment advisory agreements of the Trusts provide for fees at annual rates ranging from 0.20% to 0.95% of the average net assets of each respective fund.

Notes to Financial Statements

6. PURCHASES AND SALES OF INVESTMENT SECURITIES

The aggregate cost of purchases and proceeds from sales of investments for the year ended December 31, 2024 follow:

A The Fund Inception Date represents the first date the fund received money.

B The Investment Income Ratio represents dividends received by the subaccount, excluding capital gains distributions, divided by the average net assets. The recognition of investment income is determined by the timing of the declaration of dividends by the underlying fund in which the subaccount invests.

C The Expense Ratio considers only the annualized contract expenses borne directly by the Account, excluding expenses charged through the redemption of units, and is equal to the mortality and expense, administrative, and other charges, as defined in the Charges and Fees Note.

D Total Return is calculated as the change in unit value for each Contract presented in the Statements of Assets and Liabilities. These percentages represent the range of total returns available as of the report date and correspond with the expense ratio lowest to highest.

⁽b) As subaccount had no investments until 2021, this data is not meaningful and therefore not presented.

⁽d) As subaccount had no investments until 2023, this data is not meaningful and therefore not presented.

⁽e) As subaccount had no investments until 2024, this data is not meaningful and therefore not presented.
