

Your journey to financial wellness begins with you

Financial wellness is about achieving a healthy balance between living for today while preparing for tomorrow. The six pillars of financial wellness can provide a practical framework for managing your financial life. To see how you're doing in each of these pillars, circle your response to each question.

Protection

We all want to protect our families and ourselves. When it comes to getting the protection you need, a simple plan to help you make informed decisions is essential.

Do you have health insurance or Medicare with a Medicare Supplement plan? **Yes or No**

If you were unable to work due to an illness or disability, would you be able to cover expenses with disability insurance payouts, other income sources, and/or savings? **Yes or No**

If you have dependents (spouse, domestic partner, and/or dependent children) and you were to die, would your loved ones be able to cover expenses with life insurance payouts, other income sources, and/or savings? **Yes or No**

If you are age 50 or older, are both of the following statements true? I have Long Term Care insurance or am prepared to cover expenses through another source if the need arises. AND I have Critical Illness insurance or am prepared to cover the costs through another source if the need arises. **Yes or No**

If you answered no to any of these questions, determine if adding some insurance to close coverage gaps is the right thing for you. Here's a [quick article](#) on why you might need insurance protection.

Spending & saving

Your income is a lifeline, so what you do with it counts. Live within your means today and save for tomorrow.

When it comes to your average monthly spending, do you spend more than you make? **Never Sometimes Always**

If you answered sometimes or always, consider creating a budget. Try [Voya's budget calculator](#) to stay on track for retirement and find the balance between your needs, wants and savings.

Emergency fund

Saving for a rainy day involves making sure you have enough money set aside in an emergency fund to cover expenses and protect yourself when life hands you a few surprises.

How many months of expenses do you think you can cover with cash **6 months or more 3-5 months Less than 3 months**

If you answered 3 – 5 months, great work. Consider stashing a little bit more each paycheck to get you to a 6-month expense cushion.

If you answered less than 3 months, while saving extra money may seem impossible, start chipping away at putting even the smallest amount away. Here's a [quick read](#) on how to start your emergency fund.

Retirement

Maintaining your current lifestyle is one of the most important factors when it comes to an ideal retirement. Make sure you keep in mind that the money you save needs to last, so save consistently as much as you can.

15% (or the IRS maximum contribution limit)

Less than 15% or not currently saving for retirement

Include all money you are saving for retirement - whether it's in your FRS, Deferred Compensation Plan, IRA or other types of accounts.
